CUSTOMS.

The horse purchased from E. O. Chapman in April last by Mayor McCauley and seized by the police, was released on Monday, July 31st, after being detained over three months. Mr. McCauley paid the duty, \$8, being 20 per cent on \$40, and \$4 seizure expenses. It will be remembered that this horse was seized after having been purchased by Mr. McCauley from Mr. Chapman, who had come from Washington as a settler in the fall and was returning in the spring. Both seller and buyer were under the impression that the horse was duty free, and the first notice they had to the contrary was the seizure of this and other horses and mules originally owned by Chapman. When the seizure was made Chapman offered to pay the duty as long as he remained in the country, but the authorities would not accept it. When he left Mr. McCauley offered to pay it, but it would not be accepted without further payment for the keep of the horse while in custody. This Mr. McCauley would not give and the matter ran on for over three months, Mr. McCauley being deprived of the use of his horse, and the expenses on the animal piling up. At last the authorities decided to accept the duty and seizure expenses, and let the charges for keep go. The amount \$12, was paid by Mr. McCauley under protest, as he is still of opinion that the horse was not dutiable. What the public are interested in knowing is: why, if this is a proper conclusion, it was not reached in April, instead of the end of July, and why the citizen and taxpayer should be put about and deprived of the use of his property, with continual threats of confiscation, if he did not accede to what now appears to have been an unjust demand, during that period. The fact appears to be that the new comptroller of customs has work before him in putting the customs business of this country on a footing which shall consult the interests of business rather than the convenience or whim of a class of officials. A step in this direction would be the appointment of a customs officer at Edmonton, so that in case of any matter in dispute a settlement could be reached without unreasonable delay. The fact that so many settlers from the United States are coming into the Edmonton district makes such an appointment an absolute necessity.

GRAIN MARKETS.

J. H. Sproule, grain and commission merchant, Toronto, arrived on Monday's train. Mr. Sproule is the dealer who handled the wheat shipped to Toronto during the winter before last by John Cameron. The wheat was sold to Ontario millers and gave good satisfaction. The only drawback was that it contained a good deal of smut, which reduced the price from five to fifteen cents a bushel below what it would have been had the grain been clear of smut. While there are mills which can perfectly clean smutty grain they are only few in numbers, and when their owners buy such grain they buy it at a price that will repay them for the outlay they have made on the machinery required to clean it. No matter how good the wheat may be the presence of smut places the seller in the position of forcing his grain upon the market, while there is always a keen demand for wheat of the quality raised in the Northwest if it is free from smut. Of course the present general price of wheat has gone so low that there is nothing in it for any one but the consumer. Regarding the comparative value of the small hard red wheat raised in the Northwest and the large, soft white wheat raised west of the Rocky mountains—in the Palouse country for instance—Mr. Sproule says that No. 2 hard Northwest wheat is worth on an average 15 cents a bushel more in the Liverpool market than the best white wheat from the coast, while the

difference for consumption in Eastern Canada and the Eastern States is about 20 cents a bushel. Northwest wheat holds nearly the same proportion in price towards wheat raised in Eastern Canada. As to oats Mr. Sproule is of opinion that the prices usually realized for oats in the east will not admit of the profitable export of that crop from the Northwest, after paying railway freight. As to barley the same holds good, with the addition that Ontario barley is preferred by masters to any that has yet been received from the Northwest. Even when free from mixtures and of good color it is not considered equal to Ontario barley. The only way to reach the eastern markets profitably with the coarse grains of this country is by turning them into beef and pork by feeding them. Of course this does not apply to the market for these grains on the Pacific coast, which is the natural market of the Edmonton district and a market in which prices are better than in the east.

MACHINERY PRICES COMPARED.

As many people have the idea that farm machinery must necessarily cost very much more at Edmonton than say at Winnipeg or other Manitoba points it may be well to give a comparison of the prices at which machinery is sold by the Massey-Harris Company, the largest manufacturers of agricultural machinery in Canada at points throughout Manitoba and at Edmonton: The prices are as follows and are the cash prices:

Winnipeg, Edmonton.

Mower and rake,	\$ 90	\$ 90
Binder	155	160
wagon,	75 to 80	75 to 80
Plows, No. 14,	30	28
Iron harrows,	16 to 22	16 to 22
Dish harrows,	45	45
Press drill,	100 to 110	100 to 110
Scissors,	65 to 95	65 to 95

Threshers—The freight is added to the Winnipeg price.

The farmer who is deluded into buying land on the prairies of Manitoba rather than taking partly wooded land at Edmonton for nothing on the ground that he will have to pay more for his machinery here than there is thus very greatly deceived.

TOWN COUNCIL.

WEDNESDAY, July 26.

Communications were received from J. M. Parsons, re fire appliances. J. D. Ronald, re fire appliances.

J. C. Drewry addressed the council and offered to publish engravings and two views of the Main street and one of Donald Ross' garden and to publish any reading matter that had been omitted from the special edition of the Toronto Globe descriptive of the Edmonton district.

Sanderson—Goodridge—moved that the Mayor and Messrs. McDougall and Gallagher be a committee to prepare reading matter for the Toronto Globe.

McDougall—Gallagher—moved that having heard Mr. Drewry's explanation regarding the special edition of the Globe and his offer to publish two views of the Main street and one view of D. Ross' garden and views of private residences, together with such reading matter as the council choose to send in consideration of the dissatisfaction which the first issue gave, that on completion of the work the account of the Globe for \$145 be paid.

Tenders for the fire hall were opened as follows:

A. F. Degagne;	\$ 5,950
F. B. Karran,	7,700
Mallette & McCarthy,	6,500
Jas. McDonald,	6,575

McDougall—Gallagher—moved that Jas. McDonald be awarded the contract for the fire hall and that the contractor buy the stone now on the fire hall site at price paid for the same by the town, namely \$174.

The finance committee reported:

Dr. Braithwaite, 2 mls sal'y,	\$ 40 00
Imp'l Bank of Canada, inter't,	37 00
Jas. McDonald, sidewalks,	759 28
Edmonton & Flater, local improvements,	60 00
W. Fielders, fire tanks,	210 00
Nutt & Brown, in full of 3 plank sidewalk,	402 51
Ross Bros. account,	63 84
	81572 63

McDougall—McLeod—moved that by-law 53 be read three times at this meeting of the council.

McDougall—Sanderson—moved that by-law 53 be passed.

McLeod—Goodridge—moved that the solicitors be instructed to take the necessary steps to procure legislation for providing for the establishment of an electric railway system, one of the branches of which shall run from the town to the present railway station, and providing for the operation of the system by the town or by a company.

Sanderson—Gallagher—moved that the clerk be instructed to write to the C. P. R. with the view of finding out upon what terms the company will extend their line within the limits of the town or as near thereto as may be.

CRICKET MATCH.

The following is the score of the match between Fort Saskatchewan and Edmonton, played on the 29th July, at Edmonton. Team matching belonging to the Fort Saskatchewan club was used for the first time in Edmonton although it had been used twice before at the fort.

News of Edmonton and surroundings up to hour of issue.

News of the world by telegraph up to day of issue and from two to five days ahead of any other paper reaching Edmonton.

Controlled only by the proprietor and therefore always ready and willing to speak out for the good of the town and district.

THE BULLETIN is read more generally throughout the Edmonton district than any other paper.

If you want to do business in the Edmonton district you can reach more of the people with a less expenditure of money through the advertising columns of the BULLETIN than by any other means.

Fair advertising rates charged, and like rates to all parties.

No advertising of a questionable nature admitted if its character is known.

THE BULLETIN Printing office is second to none in the Territories. Only first-class type, machinery and paper employed. Printing of all kinds done promptly, neatly and cheaply. Call and see samples of work, and get prices before ordering elsewhere.

A newspaper is not a producing industry, but if properly conducted it assists and stimulates production and progress more than any other single agency of like cost. Money spent towards the support of a newspaper is almost entirely spent within the town in which the paper is published and is therefore not lost to the business of the town.

The local newspaper represents the district in which it is published to the outside world.

Support your home paper liberally if it deserves support, so that it can give the best possible impression of your town and district as a field for immigration and investment.

There is big money for a new town in having a live and interesting paper.

A severe storm occurred in Manitoba from Winnipeg west along the line of the Manitoba Northwester from Winnipeg to Strathclair and probably further. In Winnipeg several tree roofs were blown off and windows smashed. Heavy hail fell at Arden, Gladstone, Neepawa and Strathclair, accompanied by a wind strong enough to uproot trees and blow down buildings. Crops are utterly ruined wherever the storm struck. It seems to have been most severe and done most damage in the vicinity of Strathclair, about 20 miles north west of Winnipeg. It will be a terrible blow to the western portion of the prairie.
